General

In all cases of doubt, or when symptoms persist, seek medical attention.
Never give anything by mouth to an unconscious person.

Inhalation

Remove to fresh air, keep patient warm and at rest. If breathing is irregular or stopped, give artificial respiration. If unconscious place in the recovery position and obtain immediate medical attention. Give nothing by mouth.

Eyes

Irrigate copiously with clean water for at least 15 minutes, holding the eyelids apart and seek medical attention.

Skin

Remove contaminated clothing. Wash skin thoroughly with soap and water or use a recognized skin cleanser.

5. Fire-fighting measures

5.1. Extinguishing media

Recommended extinguishing media; alcohol resistant foam, CO₂, powder..

Do not use: water jet.

5.2. Special hazards arising from the substance or mixture

Hazardous decomposition: Burning may produce carbon monoxide and carbon dioxide contamination.

5.3. Advice for fire-fighters

Hazardous Combustion Products: Oxides of carbon.

In all cases of fires involving chemicals, a self-contained breathing apparatus is recommended for firefighters. Apply water spray or gentle mist, heavy application on hot lanolin could cause foaming. Avoid contact with hot product.

ERG Guide No. ----

6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Put on appropriate personal protective equipment (see section 8).

6.2. Environmental precautions

Do not allow spills to enter drains or waterways.

Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

6.3. Methods and material for containment and cleaning up

Product is a soft wax-like material under normal conditions. If in waxy state, material can be swept up and containerized for disposal. Wash area to eliminate slip hazard.

Under high temperatures material is a liquid. If in liquid state, confine spill. If spill is large, pump as much liquid as possible into suitable containers for disposal. Absorb small spills or large spill residue on suitable material (sawdust, clays, etc.) Shovel into containers and treat as solid waste after material cools to normal temperatures.

7. Handling and storage

7.1. Precautions for safe handling

Do not keep soiled rags or other absorbent type materials under high heat and/or within closed containers in the presence of oxygen.

Wear appropriated PPE (See section 8)

7.2. Conditions for safe storage, including any incompatibilities

Handle containers carefully to prevent damage and spillage.

Incompatible materials: Strong oxidizing agents and reducing agents.

Safety Data Sheet

Engineering Controls Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and any vapor below occupational exposure limits suitable respiratory protection must be worn.

Other Work Practices Eye washes and safety showers in the workplace are recommended
Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.
